WORK EXPERIENCE

Frontend Developer, Pulpo WMS 🔗   November 2020 – May 2024

- Identified gaps in data validations across the frontend and backend, refactored React components, resulting in a 73% reduction in data entry errors.
- Advocated for the adoption of modern JavaScript (ES6+), significantly improving code maintainability and readability, and reducing development time by 17%.
- Increased code coverage from 36% to 88% by adding substantial automated tests using Jest and Selenium.
- Developed and implemented new features requested by customers, enhancing user experience and satisfaction.
- Main technologies: React, Redux, TypeScript, Material UI, Jest, Selenium

Full-stack Developer, Flowster 🔗   July 2020 – November 2020

- Leveraged debugging techniques and UI expertise to fix critical bugs, optimizing user data entry flow
- Improved the code by introducing a linter to the team, increasing our productivity and readability of the code
- Main technologies: React, Redux, Express, Mongoose

SKILLS

Frontend Development: React, Redux, TypeScript, Next.js, Material UI, HTML/CSS3/SASS

Backend Development: Node.js, Express, PostgreSQL, MongoDB

Testing: Jest, React Testing Library, Selenium, Nightwatch
